**RECOVER 60,000  
BODIES VICTIMS  
JAPANESE QUAKE**

Estimated Half Million Persons Treated for Wounds in Tokyo and Yokohama—Red Cross Fund Near Five Million.

**SUBSCRIPTIONS TO DATE**  
TOTAL \$1,071,000 IN U. S.

TOKYO, Sept. 10.—(Associated Press)—Sixty thousand bodies have been recovered in Tokyo and Yokohama up to today and police estimate half a million persons have been treated for wounds and sickness as the result of the earthquake.

WASHINGTON, Sept. 10.—(Associated Press)—The Red Cross Japanese Relief fund is approaching the five million goal. Subscriptions reported to the national headquarters now total \$1,071,000.

**RED CROSS RELIEF  
FUND TO JAPAN**

Ninety-five Per Cent All Contributions Sent to Orient—Minimum Expenses Collected.

One hundred and ninety dollars of the two hundred dollars emergency fund sent from the Red Cross here for the Japanese relief will be sent directly, only the minimum amount being collected for expenses. The following report of this is presented by the Red Cross:

"It will be very interesting for the public to know that 95 per cent of all funds contributed to the American Red Cross are used for relief work. All books are audited by the U. S. government, and the finances have been worked out on such a basis that only five per cent of every dollar contributed is used for salaries and expenses. Judge John Barton Payne, who resumed the great responsibility of chairman of the American Red Cross two years ago, would only do so with the understanding that he might serve without compensation. It is both interesting and gratifying to know that the public can feel that all contributions are so well spent.

"The first announcement which the Washington Division wishes to make in its compliance with this request from the National Executive Committee is that Judge Edward H. Gary, chairman of the U. S. Steel corporation, has accepted the post as director, Japanese Disaster Relief fund, Washington, Division. Judge Gary immediately assumed the duties of his new task and authorized the issuance of the following statement:

"In view of the urgent need of the sufferers from the unparalleled disaster by earthquake, fire and flood which has swept the territory in Japan surrounding Tokyo and Yokohama, Chapters of the American National Red Cross should regard the quotas which have been assigned them as an absolutely minimum figure. It is imperative that the quotas assigned be reached or exceeded by next Monday, if possible, by an earlier date. It is equally imperative in order that the Red Cross may adequately cope with the situation that the Division officers in Washington have at the earliest moment definite information regarding the results secured by the Chapters."

**F. P. SCALES IS WINNER IN  
GOLF TOURNAMENT SATURDAY**

Prize for the low gross score and the net score were won by F. P. Scales in the Country Club tournament Saturday. His gross score was 85 and his net score 76. Prizes were a pair of golf shoes and a thermos bottle.

J. E. Settle of Pineville won third place the prize being a gold pencil. His low gross score was 95 while his net score was 80.

A championship qualifying tournament will be held on the club links Friday.

**Police Court News.**

The following persons, charged with the offenses designated, were convicted and fined in police court: Clarence Anderson and Bertha Nee, disorderly conduct, \$24.25; James Smith and William Conley, holding, \$9.25; Mike Hall, gaming, \$24.25; Albert Fennell, Ar. Harp, \$24.25; G. W. Riley, Henry Jones, and Mose Smith, disorderly conduct, \$14.25; Alva Ball, flourishing a deadly weapon, \$54.25.

**PARTIAL ECLIPSE OF  
SUN IS NOTICEABLE  
HERE THIS AFTERNOON**

Passing between the earth and the sun, the moon's shadow partially darkened the glittering orb at 2:20 this afternoon. At 3 o'clock, the shadow had covered perhaps a fifth of the sun's surface. It was scheduled to cover approximately 55 per cent, from our viewpoint here, of the entire surface and then to recede. The entire eclipse lasted about two hours.

The partial eclipse did not attract any great amount of attention here. Perhaps this was partly due to the fact that smoked glass was necessary to view the great show of the universe.

The total eclipse was visible at points on the Western coast. There it was expected to arouse general interest.

**"NAVY DAY" TO BE  
OBSERVED OCT. 27**

Secretary Roosevelt Says Navy Navy is Our Bulwark—Urges All To Celebrate

Associated Press.

WASHINGTON, Sept. 10.—With the approval of the Navy Department, the Navy League of the United States is planning another "Navy Day," when it hopes to center the country's attention on its defenses by sea. The celebration will take place October 27.

This letter from Acting Secretary Roosevelt to Robert W. Kelley, president of the League, promising the cooperation of the Navy Department in making the day a success, was made public today at the League's headquarters:

"My dear Mr. Kelley:

"I am delighted to learn that you are planning to hold Navy Day again this year. What you did last year was a real patriotic service.

"It is the right of our people to be fully informed on the vital problem of national defense. The Navy is our bulwark. Behind its protection our people are able to carry on their lives, develop their ideals, and live in the righteous peace we so earnestly desire.

"It is the right arm of our State Department, and translates our national pronouncements for empty words into statements that must be given the most serious consideration by all.

"The Department will gladly cooperate with you and help in any way to make the people realize their vital interest in the Navy.

"Every man and woman of the United States, especially those with children, should make it their business to see that our Navy is adequately and properly maintained.

"Very truly yours,

"Theodore Roosevelt."

**JUDGES SELECTED FOR MAN-  
RING NAME CONTEST**

Judges for the Manning ice cream contest were selected Saturday afternoon, three of them being Middlesboro women and three of Pineville. The method used in the selection was entirely one of chance. Mrs. Harman Barker, blindfolded, selected three names from 25 names of local women. Selection was made in a similar manner for the Pineville judges.

Middlesboro women who will act as judges are: Mrs. J. T. Anderson, Mrs. S. M. Reams and Mrs. Jacob Shultz. Judges from Pineville are: Mrs. Rlee Johnson, Mrs. James G. Jeffries and Mrs. W. T. Davis. The judges will meet tomorrow afternoon at the Booneville Inn and select the two most appropriate names. First and second prizes will be awarded. After the corporation name has been selected, application for a charter will be filed.

The contest has been even more popular than was expected, more than 200 names having been submitted. Most of these are catchy terms and the matter of selecting the best will be no easy task.

**Scouts Would Sell Prizes.**

The Edison cabinet photograph and the 550 worth of records received by the Boy Scouts in the recent Three States' contest are being advertised in this issue for sale by the Scouts. Any one interested is asked to notify the leader, Philip Arthur.

**Ford Car Catches Fire.**

A Ford car, the property of a traveling man whose name is not known, became ignited on Exeter avenue this morning from an overturned battery. The fire department was summoned to the scene and was able to extinguish the blaze before the car was destroyed. It was seriously damaged by the fire.

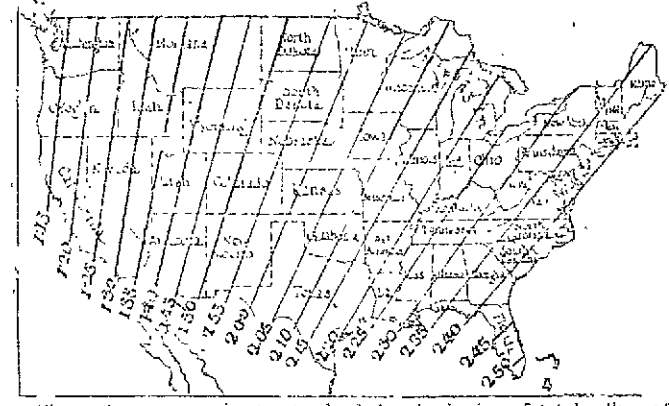

**When The Eclipse Hit Middlesboro**

Chart shows approximate standard time beginning of total eclipse of the sun on the afternoon of September 10 over all sections of the country as indicated by lateral lines. The manifestation was visible in its totality only in southwestern California and northern Mexico.

**Some Interesting Historical  
Data About Solar Eclipses**

Shadow cast by the moon when directly under the sun was approximately 100 miles in diameter.

The shadow traveled southeasterly, passing over all the islands off the southern California coast, with the Island of San Clemente exactly on the central line of the shadow path.

Eclipses, such as the one of today, occur on an average of one every 22 months, most of which are inaccessible due to the shadow path falling in the ocean or in the arctic and antarctic wastes.

More than 100 scientific bodies representing most of the foremost universities and astronomical bodies of the world have been located at vantage points where the shadow was visible in its totality on mountain peaks in the area to be totally eclipsed.

An early historical reference relates that when the two learned Chinese

astronomers named Hi and Ho forgot to calculate an eclipse under the Emperor Tshun Kang, the people were plunged into fear when darkness covered the earth and all time reckonings thrown into confusion. As penalty for their negligence the emperor had the astronomers' heads removed.

Peace was declared and a battle between the Medes and Persians halted, May 28, 585 B. C., when the sun was suddenly blotted out in the midst of the fighting, causing the enemies to believe that the gods disapproved of their struggle and bloodshed.

During the eighteenth century solar eclipses were looked upon with superstition, medical authorities even going to the precaution of sealing all wells to prevent their being contaminated by the poisonous mists which were believed to emanate from the eclipse shadows.

**SHOOTING AFFRAY IN EAST  
END YESTERDAY OVER GIRL**

Argument over a girl resulted in a shooting affray in East End yesterday. Officers were unable to get enough information from the residents of the section and witnesses to the affair to make an arrest.

According to the reports, Warren Snyder shot at a car which was occupied by Curtis Fry, the bullets striking the door and tires. No one was hurt. The enmity between the two men is said to have been the outgrowth of their friendship for the same girl.

Officers say their failure to make an arrest in the case was due solely to the fact that the East End people refused to give any definite information.

"It is easier to get information of this kind out of the people on Nineteenth street than those in East End," a policeman said this morning.

**OBSERVATION OF JEWISH  
NEW YEAR BEGINS TONIGHT**

Observance of the Jewish New Year will begin tonight at about 6 o'clock and services will continue through Tuesday and Wednesday. All local stores operated by Jews will be closed all day tomorrow.

According to the Jewish reckoning, their New Year, the year 5684, begins tomorrow. Religious services will be conducted at the Masonic Temple. Rabbi Jerome Marks, of Knoxville, will have charge of these exercises. He will be assisted in the work by Sam Weinstein.

**L. M. U. PROGRAM AT  
MAYS CHAPEL YESTERDAY**

HARROGATE, Sept. 10.—Representatives of the Lincoln Memorial university gave an interesting program at Mays Chapel, in the Lanesville Valley neighborhood of Claiborne county, yesterday. A basket dinner was enjoyed at noon.

The male quartette of the university sang several songs, as did the local church choir. Dr. R. O. Matthews, president of L. M. U., made a speech on Neighborhoodness of L. M. U. Prof. F. C. Grannis explained the Shiloh-Highway agricultural project. Prof. Jas. Baldwin, Claiborne county superintendent of education, made an interesting talk on the benefits he had received for the university. A rising vote of thanks was accorded the university representatives and invited them to return.

The Lanesville Valley community has furnished many students to the university, a number of whom have made successful business and professional men and women. This one of a series of meetings that have been held in various rural centers recently.

**DEMOCRATS TO  
OPEN CAMPAIGN  
BY NEXT WEEK**

Field's Opening Address Probably in Maysville, His Home District—Bell County Party to Organize This Week.

ELI BERRY WILL HEAD  
STATE SPEAKERS' BUREAU

LOUISVILLE, Sept. 10.—(Associated Press)—Joseph W. Morris, campaign chairman, today announced that Kentucky Democrats "will enter the campaign at once to elect W. J. Fields, named to succeed the late J. Campbell Campbell at the head of the ticket." He said they might take a few days to outline the program for Fields. He will probably make his opening address at Maysville, in the Ninth District, his home district, "some day next week." Eli Berry of Paducah, has been asked to head the speakers' bureau, which will arrange speaking dates for other candidates on the ticket.

A meeting of Bell County Democrats will probably be held this week to organize for the coming election, particularly to elect a campaign manager. Mr. Fields, the Democratic nominee, is not very well known here, but his record in Congress and his policies make him popular here, as well as elsewhere over the state.

**MANY GOLFERS TO  
ATTEND KY. MEET**

Central Kentucky Championship To Be at Stake Governor's Trophy Offered

By Associated Press.  
LEXINGTON, Ky., Sept. 10.—Golfers representing all clubs of the Blue Grass are expected here tomorrow to compete in the Central Kentucky tournament at the Lexington Country Club links. Entry cards, mailed out last week by Harry S. Brower, secretary, have been returned, thereby assuring considerable competition in the various events.

Five match play events have been arranged by the committee in charge of the tournament. They are as follows:

Central Kentucky Championship—Sixteen low scores in medal play round of 36 holes to qualify for elimination match play of 18 holes, 36 hole final. Trophies to winner and runner-up.

The Governor's Trophy—Next 16 low scores in medal play round of 36 holes to qualify for elimination match play of 18 holes in all rounds. Trophies to winner and runner up. All players who fail to qualify or who are eliminated will be eligible for some competition to be played during the tournament, to be announced later.

Central Kentucky Open Championship—Eighteen holes medal play. Cash prizes or the equivalent for two lowest gross scores.

Women's Handicap Medal Play Match—Eighteen holes. Open to women members of all golf clubs in central Kentucky.

**MODERN GYPSIES, IN CARS,  
PASSED THROUGH HERE TODAY**

A number of gypsies passed through Middlesboro this morning stopping here long enough to get gas for their cars and to take a brief rest. There were about ten cars in the caravan.

There were many women in the crowd. Dressed in their quaint garments and bedecked with quantities of jewelry, these attracted no small amount of attention. Brief as their stay here was, the women had time to tell a few fables from the people who gathered around.

**Miller's Auto Damaged.**

Fitzhugh Miller's automobile was damaged when it ran out of the road at Bluehampton yesterday afternoon and crashed into a telephone pole. With the exception of a few minor bruises the driver was not injured.

**Prof. Oliver Here Saturday.**

Prof. J. W. Oliver, formerly superintendent of the Middlesboro public schools, now superintendent of the schools in Pikeville, spent Saturday in this city visiting old acquaintances. Professor Oliver left Middlesboro three years ago to take up his present work.

**PIG EXCELLENT AID  
TO CRAP SHOOTERS  
WHEN COPS ARRIVE**

LOUISVILLE, Ky., Sept. 10.—Crap games have been broken up in various ways but Patrolman "Huck" Jones reported a new one that happened here Labor Day when he alleged "a pig beat him into the evidence."

According to the patrolman, Rachel, a pet pig on the steamer John W. Hubbard, broke up a game by swallowing the dice just as he was about to collar as many as the cube devotees as possible Labor Day morning.

A negro, Jones said, told him a game was being played aboard the boat. Jones hurried to the scene, he said, saw the game in progress but before he could get to the stooping darkies a pig put in its appearance, hopped right into the game and while the cubes were still spinning, and the shaker was alleged to be pleading for a certain number, the pig put her mouth to the boards and with a gulp swallowed the ivory.

Jones said he could not make any arrests because he could not produce any evidence.

**SURVEY EAST END  
STREETS TODAY**

State Highway Engineer Going Over Ground—Work Will Probably Begin at Once.

Preliminary surveys are being made in East End this afternoon preparatory to beginning actual construction work there. M. V. Cline, state highway engineer, has been going over the ground with the construction company representatives. Indications are that the work there will begin at once.

There were some jobs on other streets that had to be done and this was partly the reason why the East Cumberland work did not begin today. Asphalt is being spread and rolled on Ashbury avenue between Nineteenth street and the railroad tracks today and it is thought that this work will be finished by tomorrow noon. Grading work continues on Twenty-fourth street.

Work on the sewer line on East Cumberland has proceeded for two blocks. It is the plan of the K. C. company to replace the old iron sewer pipes with new cast-iron pipes on account of the greater durability of the latter quality.

**FIFTY-FOUR GALLON STILL  
CAPTURED AT FERN LAKE**

Another big still was captured near the head of Fern Lake late yesterday afternoon by local officers, led by W. B. Saylor, federal prohibition officer. The still was of 54 gallon capacity and apparently had not been used for a long time. None of the usual accessories for making liquor were found. No dwelling is near the place where the still was found and the officers do not know who owned it. It was brought to the city hall by officers and destroyed.

Sheriff Jack Greer, of Claiborne county, assisted in the work. Other officers who assisted Mr. Saylor were: Constable J. A. Thompson, Deputy D. C. Sellers, and Policeman C. M. Henry.

**COUNCIL WILL CONSIDER  
STREET PROBLEM TONIGHT**

The regular semi-monthly meeting of the city council will be held at 7 o'clock tonight. The principal matter of business for the session will be the question of accepting the Hubbard Construction company bid for Eighteenth and Nineteenth streets from Cumberland avenue to Lothbury avenue and a portion of Lyndonwood road.

The matter came before the last meeting of the council, but on account of protests of property owners, the matter was deferred until the meeting tonight.

**Mrs. Keres Festival Visitor.**

Thursday's Cincinnati Post carries a picture of Mrs. Sam Keres of Middlesboro, a visitor at the Cincinnati Fall Festival, offering her contribution to the Japanese relief fund being collected by the Cincinnati Red Cross chapter.

Mrs. Keres, who has been attending the Festival several days, will return to Middlesboro tonight.

**Funeral for Epps Baby.**

Funeral services for Henry Epps, Jr., age six months, who died at the home of his parents at Cumberland Gap on Thursday night, were conducted at 10 o'clock Saturday morning by the Rev. W. O. Farmer. Interment was in a cemetery at Gibson station.

**U. M. W. ATTACK  
REPORT OF COAL  
STRIKE PROBES**

Say It Reads Like "Brief in Behalf of Non-union Bituminous Operators of West Virginia and Kentucky."

**DECLARE ARMED GUARDS  
PREVENTS ORGANIZATION**

WASHINGTON, Sept. 11.—(Associated Press)—United Mine Workers of America yesterday's report of the coal strike, in a statement issued here, attacking "very much like well prepared commission on causes of the strikes as briefs in behalf of non-union bituminous operators of West Virginia and northern Kentucky. The commission knows very well the only reason the miners of West Virginia have not been organized long ago is the private armed guards and gunmen are there for the purpose of seeing to it that men do not get an opportunity to join the union."

**SAYS REDS SEEK  
GOVT. OVERTHROW**

U. M. W. Charge Tentative Soviet Program Exists To Overthrow All U. S. Institutions

By Associated Press.

NEW YORK, Sept. 10.—The United Mine Workers of America today made public the first of a series of six articles charging that "Red" forces, under the direct supervision of Moscow, are attempting to seize control of the organized labor movement of America and use it as the base from which to carry on the Communist effort for the overthrow of American governments. "Imported revolution is knocking at the door of the United Mine Workers of America and of the people of the United States and Canada," says the introductory article, which adds that its disclosures are "the result of an independent, searching investigation by the miners' organization which led directly to original sources."

Through a revolutionary movement on this continent the Communist International at Moscow has undertaken, according to the miners, to carry out a program including the following:

"1—Overthrow and destruction of the Federal, state and provincial governments, with the elimination of existing constitutional forms and foundations.

"2—Establishment of a Soviet dictatorship, absolute in its exercise of power, owing allegiance to and conceding the authority only of the Communist or Third International at Moscow as a governmental substitute.

"3—Destruction of all social, economic and political institutions as they exist at this time.

"4—Seizure of all labor unions, through a process of boring from within them, and utilizing the mass strategic instrument in fulfillment of their revolutionary designs upon organized and constitutional government.

"5—Invasion of United Mine Workers of America with the ouster of its present officials and leaders and the substitution of a leadership of Communists, that it may be used as an instrumentality for seizing the other labor unions of America, and for eventually taking possession of the country.

"6—A well-organized movement is being promoted with the Big 4 railroad brotherhoods and 16 railroad trade unions to amalgamate all rail workers into one departmentalized industrial union, controlled by a single leader of Communist principle and affiliation and owing allegiance to the Communist organization."

The Herrin massacre of non-union miners last year was blamed by authorities of the articles upon groups of Communist bodies centered at Chicago. Bombings, dynamite, rioting and sabotage which marked the two big strikes last year also were laid at the door of the Reds.

**Mannings to Baltimore.**

Mrs. H. T. Manning, who had been spending the summer with her parents, Mr. and Mrs. Robert L. Ralston, at Fork Ridge, returned Wednesday to her home in Jefferson City, Mo. In October the Rev. and Mrs. Manning will leave Jefferson City for Baltimore, Md., where the Rev. Manning has been called as rector of the All Saints' Episcopal church of that city. The Rev. Manning was rector of the Episcopal church here eight years ago.

**To My Mother**  
How fair you are, my mother!  
Ah, though 'tis many a year/  
Since you were here,  
Still do I see your beauteous face,  
Of your dark eyes cometh a grace  
Of long ago.

So gentle, too, my mother!  
Just as of old, upon my brow,  
Like benedictions now,  
Falleth your dear hand's touch;  
And still, as then,  
A voice that glads me over-much,  
Cometh again.  
My fair and gentle mother!

How you have loved me, mother,  
I have not power to tell,  
Knowing full well  
That even in the rest above  
It is your will.  
To watch and guard me with your  
love.

Loving me still,  
And, as of old, my mother,  
Am content to be a child,  
My mother's love beguiled.  
From all these other charms;  
So to the last  
Within thy dear, protecting arms  
Hold thou me fast.  
My guardian angel, mother!

—Eugene Field.

## Campbell-Buchanan Nuptials Yesterday.

Miss Laura Belle Buchanan, youngest daughter of the Rev. and Mrs. W. L. Buchanan, and Harry A. Campbell were married at 12 o'clock yesterday at the Christian church, immediately after the church services. The Rev. A. B. Reeves, pastor of the church performed the ceremony. The young couple left immediately after the ceremony for a wedding trip to Louisville and to central Kentucky. On their return they will reside in Middlesboro. Mr. Campbell is employed by the Mingo Coal and Coke company.

The church was beautifully decorated in dahlias and other fall flowers. The bride, attired in a brown suit and hat, wearing a corsage of white roses, entered at one side accompanied by her bridesmaid, Miss Winnifred Ivey, also attired in brown. The bridegroom entered from the other side, attended by his best man, Raymond Krieger.

The bride is a graduate of the Middlesboro high school and is one of this city's most charming young women. The

bridegroom came here from Louisville about a year ago and has made many friends during his stay here.

## Clarence Gordon Weds Mississippi Girl

Mr. Jesse Skyes Martin, of Columbus, Miss., announced the marriage of his daughter, Frances Roberta, to Clarence Terry Gordon, at 9 o'clock Saturday evening, September 8, at Middlesboro, Ky. Mr. and Mrs. Gordon will be at home at Wilkinsburg, Pa., after September 18.

Mr. Gordon is the younger son of Mr. and Mrs. F. M. Gordon of this city. He is connected with the Westinghouse company in Pittsburgh and lives in Wilkinsburg, Pa.

The marriage took place at the F. M. Gordon home Saturday evening, witnessed by a few friends and relatives. The house was beautifully decorated in pink and white asters. The ceremony was performed by the Rev. Henry E. Spears, of Lake Providence, La. Miss Eleanor Campbell played the wedding march and Mrs. Phillip Keeley sang "Until." The pretty young bride wore a golden brown charmose dress and carried Columbia roses. The young couple will spend several days in Middlesboro before going on to their new home in Wilkinsburg.

## Mr. and Mrs. Rash Arrive Home

Mr. and Mrs. Warren P. Rash arrived home Saturday night from a wedding trip in Missouri and Kentucky. They will make their home, for the present, at the S. W. Givens home. Mrs. Rash was formerly Miss Kathryn Burch. They were married in Brookfield, Mo., September 4.

## Miss Parakee Givens Celebrates Birthday

Miss Parakee Givens entertained Saturday afternoon with a birthday party at the home of her parents, Mr. and Mrs. W. M. Givens, in honor of her thirteenth birthday. The afternoon was spent in playing games, at the close of which time refreshments were served. Guests were: Ada Colson, Elizabeth Brewster, Mildred Scott, Gracie Jones, Clara Harvey, Christine Harris, Edw. Patterson, Pearl Edwin Nicholas, Delbert Scott, T. A. Harris and Mr. and Mrs. A. C. Harris.

## Social for M. E. Church Boosters

A social will be given for the M. E. Church Boosters tomorrow evening by Dr. H. L. Gragg, the Rev. E. F. Burnside and C. C. Hurst on the green hill near the home of Dr. Gragg. Plenty of games and amusement will be provided, as well as good things to eat and drink, and Dr. Gragg will give a lecture on "An Acre and a Half of Sunshine." All are invited, especially the members of the Boosters' League.

## Celebrate Golden Wedding Anniversary.

Mrs. L. P. Brown and Mrs. Frank Ogilvie of Charlottesville, Va., entertained last evening in honor of their parents' Mr. and Mrs. William Bowles Hawkins golden Wedding Anniversary. The home was decorated with yellow dahlias. The "bride and groom" received a number of presents, mostly gold coin. The following relatives and friends from a distance were with them to celebrate this unusual occasion: Mrs. H. P. Hawkins, of Danville; Mr. and Mrs. Greiver, of Louisville; Misses Mildred J. Hawkins and Adaline Hawkins, of Frankfort; and Mrs. J. W. Wallace and Miss Lida Raney, of Louisville.

Mr. and Mrs. William Russell Hawkins entertained the wedding party with a buffet luncheon earlier in the evening.

## LOCALS

Dr. T. H. Card and his sister, Mrs. Poor, are in Louisville this week visiting friends and attending the State Fair. They will return Friday.

Miss Lucille Short and Miss Adah Ralston spent last night with friends in Pineville.

Mrs. Will Sampson and two daughters, Elizabeth and Virginia, who had been visiting at the home of Judge J. R. Sampson here for several days, returned to their home in Harlan yesterday.

Dr. and Mrs. J. P. Edmonds and children, Nancy and Jack, motored to Gate City, Va., yesterday for a visit, with the former's sister.

Dr. J. M. Brooks left for Louisville yesterday, where he will visit for a week.

Gene White is in Cincinnati for a short visit.

Mr. and Mrs. C. A. Lanthier were guests of Mr. and Mrs. A. N. Spence of Harrogate, yesterday.

Miss Maurine Allen and Miss Josephine Humphreys of Gibson Station were here Saturday.

Leon Blankenship of Knoxville was the guest of Miss Louise Carr. Mr. Blankenship and Miss Carr motored to LaFollette yesterday afternoon.

Mr. and Mrs. W. B. Shultz have returned from Louisville where they spent several days last week shopping.

Miss Lenore Herd returned to Frankfort Friday to resume her position in the Attorney-General's office. She had been visiting her parents, Judge and Mrs. C. E. Herd, here, for a few weeks.

Leo Wardup left Saturday night for Tuscaloosa, Ala., where he will be a student in the University of Alabama during the coming year.

Miss Adah Ralston will go to Georgetown tomorrow to enter Cardome academy.

E. K. Mynatt of Knoxville, who had been in Middlesboro during the past week, went to Harlan this morning.

Wainwright Foley, Johnny Green, Bob Latham and George Bentley were among the visitors from Pineville here last night.

Miss Myra Johnson of Pineville was in Middlesboro last night.

## SISTER Mary's KITCHEN

### Piccalilli

Nearly every housekeeper sometimes finds herself with more vegetables on hand than she can use on the table.

The temptation is great to buy when driving through the country where the farmer has his vegetables displayed

**MOUNTAIN SAND** per load \$2.50  
**SLAG** per load \$1.50  
**LUMP COAL** per load \$6  
161 new 358 old  
**D. C. SELLERS**

by the roadside. Before you know it you have a larger supply than your family can eat, while the vegetables are fresh and good.

The woman with a garden is often at her wit's end as to how to take care of her surplus with the danger of frost growing every day.

These recipes for chow-chow and "piccalilli" may help you to salvage these late vegetables or take care of the surplus.

### English Piccalilli.

One small head of cabbage or a medium sized head of cauliflower, 2 dozen small cucumbers, 1 quart small string beans, 12 small onions, 3 red peppers, 2 green peppers, 4 cups vinegar, 2 1/2 cups brown sugar, 1 cup salt, 2 teaspoonfuls mustard, 2 teaspoonfuls of pepper, 1 tablespoon allspice, 2 teaspoonfuls celery seed, 1 tablespoon cinnamon, 1 tablespoon turmeric.

Wash and drain vegetables. Chop and put in a crock with alternating layers of salt. Let stand over night. In the morning drain and rinse in clear cold water. Drain and shake as dry as possible. Put vinegar into preserving kettle and bring to the boiling point. Add sugar and spices and when mixture again boils add vegetables. Boil for 20 minutes and send in sterilized jars.

### Green Tomato Piccalilli.

Four quarts green tomatoes, 4 medium sized onions, 2 large sweet red peppers, 2 cups shredded cabbage, 3 cups diced celery, 1 cup salt, 6 cups vinegar, 2 1/2 cups brown sugar, 1/2 teaspoon cayenne pepper, 2 teaspoonfuls whole cloves, 1 tablespoon mustard seed, 1 tablespoon finely broken stick cinnamon, 1 teaspoon peppercorns.

Wash and chop tomatoes. Peel and chop onions. Remove seeds and ribs of peppers and chop. Put all the vegetables except the celery in a crock with layers of salt and let stand over night. In the morning drain and add celery. Tie spices in a small muslin bag. Put vinegar, sugar, pepper, spices and prepared vegetables in preserving kettle. Bring to the boiling point and boil for half an hour. Put into sterilized jars and seal.

### Chow-Chow.

One half peck green tomatoes, 1-2

peck apples, 21 small onions, 6 green peppers, 6 red peppers, 1 small head of cabbage, 2 tablespoons white mustard seed, 1 tablespoon whole cloves, 1 tablespoon celery seed, 1 tablespoon allspice, 1 tablespoon ground mustard, 1 cup brown sugar, vinegar.

Slice tomatoes and sprinkle with one-half cup salt. Let stand over night. Drain and chop. Add apple, chopped, onions chopped, peppers prepared and chopped and cabbage shredded. Mix ground mustard with sugar. The pieces in a bag. Put all ingredients in a preserving kettle, cover with vinegar, bring to the boiling point and simmer two hours. Pour into sterilized jars and seal.

They string beans are often used in place of apples in this recipe.

A. D. DeBosh who has been on a vacation to the mountains of North Carolina for more than a week, is expected to return tomorrow.

Mrs. E. P. Seales and small son, Edna, are spending a few days in Louisville.

G. B. Talbott returned this morning from New York where he had been doing his winter buying.

## Auto Air Brake Mechanism Designed for Even Stopping

Another contribution to the fast spreading safety movement, especially in reference to brakes, is the Westinghouse air control system.

The same firm that has been manufacturing train and street car brakes now has come forth with a mechanism applicable to automobiles. In this case, however, the compressed air taken from the engine is used merely as a substitute for the hand and foot levers, and not as a direct braking device.

In the four-wheel brake system, there is what is called a servo brake, by reason of which the driver need not exert all the force necessary to apply on all four brakes to stop the car. This, however, does not solve the problem of compression or equalization of force on all brakes, say engineers. It is this feature that they are still trying to perfect before four-wheel brakes are generally accepted.

The Westinghouse air brake mechanism, on the other hand, is put forth as the efficient compensator. The air is kept in a reservoir at a pressure below 100 pounds per square inch, through a pressure control valve on the cylinders. It is controlled through a valve at the steering wheel, much

HOW THE AIR BRAKE CONTROL LEVER IS ATTACHED TO THE STEERING COLUMN.

like the street car motorman's air brake control. And a series of cylinders with diaphragm controls is said to assume equal pressure of air throughout.

Operation of the main control valve merely allows the compressed air to control the brake levers with equal pressure throughout.

The advantage of equalized pressure is its assurance against skidding or skidding, when the brakes are applied. Uneven pressure on the rear wheels, or between the front and rear wheels, would cause that.

### Corroded Terminals

Application of a little ammonia, or baking soda dissolved in water, to

the battery terminals will remove the corrosion that clogs them and causes interruption of current. Corrosion can be prevented by coating the terminals with vaseline.

### Concrete Roads

There are some 25,000 miles of concrete highway in the United States

and the most of it in the northeast and California. Some of the southern states and the mountain states have less than 100 miles of concrete roads each.

### Shellac Rims

Tires can be removed more easily if the rims are shellacked. Graphite also allows the tires to be slipped off

with ease. Clean the rims before applying the shellac or graphite. A thin film of the coating is enough. It

## KENTUCKY ROAD CONDITION REPORT

Many Detours for Motorists Traveling Through State at This Time.

By Associated Press.

FRANKFORT, Ky., Sept. 10.—Road conditions in Kentucky for the week ending September ninth were announced today by J. T. Madison, chief engineer of the Department of State Roads and Highways, as follows:

### Southern Dixie Highway

Southbound traffic from Cincinnati should cross the river at Newport then go by way of Alexandria, Clayville, Grants Lick, Butler, Greenwood, Falmouth, Cynthiana and Paris to Lexington. All road intersections between Alexandria and Greenwood are marked by Highway Department detour signs.

The Dixie Highway south of Lexington is under construction. Local traffic through Florence and Williams-town should detour at Walton. Construction has opened between Florence and Richmond.

Madison County.—To avoid construction between Lexington and Richmond southbound traffic should go from Lexington to Pine Grove, Rockcastle, Boonesboro Ferry, Red House, and Richmond.

Rockcastle County.—In going from Mt. Vernon to Lexington, detour one mile beyond Pinehill. Detour six miles long in fair condition. Signs at all intersections. Road open between 5:30 and 6:30 a. m., 11:30 and 12:30 p. m.

Laurel County.—The earth grade just south of Rockcastle river is in good condition for travel except after heavy rains. The waterbound macadam section joining this on the south is open to traffic and in good condition for travel.

Whitley County.—The road from Corbin to Williamsburg is being constructed with waterbound macadam. It is open to traffic and in good condition. From Williamsburg to Jellico the graded earth road is in good condition, except immediately after heavy rains.

### Boone Way

Knox County.—Tennessee traffic advised to go by way of Williamsburg and Jellico to avoid construction and poor detours by way of Barbourville and Pritchett to Cumberland Gap.

Grade and draft construction between Corbin and Barbourville. Detours very poor for automobile traffic. Several structures out. Go by way of Woodbine and Dishman Springs.

South of Barbourville, rock asphalt on concrete base under construction. Detour by way of Artemus and Hinton to Flat Lick, a distance of ten miles. This is unimproved road, very poor. Signs at all points of detours. Baiter leave road almost impassable. Bell County Surface treatment between Pineville and Middlesboro has been completed. Road open to traffic.

South of Catlettsburg to the mouth of Laurel Creek is under construction and impassable; from Laurel Creek to the Laurel county line under construction but open to traffic; traffic from the county line to Louisa grade road in good condition; from Louisa to Pikeville under construction most of the way, and passable only in very dry weather.

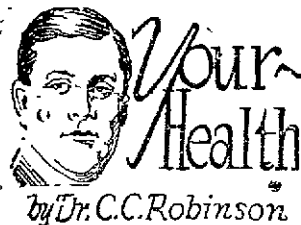

### Pikeville Road

Open to traffic with the exception of about 7 miles that is under construction; old road around construction is passable. Entire road in good condition for dry weather traffic.

Lewis County.—Vanceburg-Maysville road under construction, extremely rough, but can be traveled.

Estill County.—Richmond-Irvine road under construction, detour at gates placed along construction.

Powell and Olla Counties.—Winchester-Campton road under construction between Clay City and Campton. No detours to Clay City to Stanton and points east. Road passable only in dry weather via Campton Junction, Glenaline, Pine Ridge and Campton. Road passable at all times between Winchester and Clay City.

Your Health by Dr. C.C. Robinson

Your body balance must be preserved if life is to be lived at its best after the age of 35.

Body balance is keeping the nutritive supply of your body equalized with the energy side. It is the using and burning of cells and their replacement in the organisms of your body.

We are continually changing our bodies by working and exercise both mental and physical. Part of the

protoplasmic cells are always undergoing change, being burned up and swept away.

These must not only be renewed and replaced, but there should also be a surplus. We call this vitality or vital life.

Vital surplus is often squandered by the time middle life is reached. Remember up to the age of 30 you have been building body for both growth and repair. Don't continue to let your weight increase after this time. You are simply adding fat cells. In other words, you are storing up trouble for yourself later on, as the fat cells do not work.

Although the human body is most complex in its makeup and functioning, it has tendencies are toward normal or right living, all that is necessary to keep this finely adjusted mechanism in complete running order is to keep your body balance.

The vitamins that build and sus-

tain your body strength must be carefully selected by using the proper food. If you are not thorough in this selection you will lose weight. Losing weight means a let-down in cell replacement, by not providing the normal stream of blood nourishment.

This invites weakness, a loss of working power, which means a let-down in initiative and lack of disease resistance.

### NEW DODGE BROTHERS CAR INSURES EASY RIDING

It doesn't take an owner long to detect the remarkable riding qualities of the new Dodge Brothers Cars, according to P. P. Seales, local Dodge Bros. dealer.

The cars have been tried out no why owners over every kind of going and the riding comfort has been demonstrated thoroughly. It is felt in both the front and rear seats, regardless of po-

sition or road conditions. There is no questioning the feeling of unusual comfort in the definite impression of stability and solidity which contribute so materially to satisfaction in driving.

The splendid riding comfort of the new Dodge Brothers cars is due largely to the type of rear spring suspension employed. The rear springs which are extremely long, are under-lung. Also, the fact that the body has been lengthened and lowered tends to make the car cling more firmly to the road.

The new car, in every sense, a remarkably easy riding car.

### Transport Congress.

Delegates from 111 countries are expected to attend the first international transport congress ever held in this country. It is scheduled for May, 1921, at Detroit.

Canada has more than 1000 fur farms.

# LONG LIFE

The real value of a Dodge Brothers car lies in its ability to give satisfactory service beyond the period of life commonly allotted to motor cars.

The materials which go into it are chosen to produce the most miles of satisfactory transportation for the least money.

Each prospective purchaser of a motor car should profit by these facts.

Call Cumberland 84  
Ask for Mr. Farmer, Used Car Man

W. H. C. writes: My car has been run but 7,000 miles in all but has not been working well of late, two of the cylinders acting rather weak. The repair shop people say that my engine needs new rings. Do you think this is likely? How long should piston rings last anyway?

Answer: Your engine should not require piston rings this early, nor until it has run at least double the distance you state it has. This is on the assumption, of course, that your engine had first-rate rings in the beginning, that none have broken, and that its lubrication has never failed to be adequate. If, when their valves are perfectly tight, two of your cylinders leak gas, the presumption is that their piston-rings are at fault, but this is not necessarily true if these cylinder bores have become scored. In this latter event, the fitting of new rings can hardly be expected to mend matters. You might have the pistons of the two weak cylinders of their bores inspected and then you can decide what ought to be done. How long a set of piston rings should last is something we cannot state with any degree of confidence. We have known sets to be working well after 30,000 miles, but this is unusual.

#### Rear Body Bolts Loose

R. E. asks: What causes my car to make a loud thump whenever it goes over a bad bump with nobody in it except me? I don't hear much noise when anyone is in the back seat.

Answer: It may be that some of

the bolts are loose. There is no load in the back seat, the body throws up a little and makes the noise which you speak of. You better go over all these bolts and tighten them securely and also see that the floor boards are screwed down tight, so that they cannot jiggle.

#### Radiator Bolts Persistently

J. M. S. writes: Of late, the radiator of my car steams heavily, whenever I drive at more than 15 m. p. h. I have cleaned out the carbon and ground the valves, removed the thermostat from the system, tested the pump (which seemed to be working), set the mixture somewhat leaner but not too lean, put in new rubber hose connections, cleaned out the radiator with soda solution and had the distributor repaired and the spark-timing verified. Still the water boils away very rapidly, if I drive at all fast. What more can I do to stop this boiling?

Answer: You say nothing about the fan, although you may have tested it. Are you sure that its belt is tight enough so that it runs with proportionately increased speed, as the engine speeds up and thus gives its expected cooling effect on the hot water in the radiator? Unless the belt is tight enough so that a perceptible force is required to rotate the fan, when the engine is stopped, fan action is not likely to be sufficient at high speeds. Are you certain that the pump is working positively? You better test it by removing the upper water connection at the radiator and see if a full stream of water is thrown from it when the engine is speeded up.

#### MISS MYRTLE LEWIS WINS IN THREE STATES' CONTEST

Miss Myrtle Lewis won the \$1165 Studebaker light six car in the Three States' circulation contest. The contest closed at 9 o'clock Saturday night and the prizes had been awarded by 11 o'clock. The Ford 456 touring car was won by Mrs. W. H. Bullock.

Other prizes and winners were as follows: \$200 Columbia phonograph, Miss Mae Walker; \$112 diamond ring, Miss Lucy Dornar; \$75 business scholarship, Charles H. Hoskins; \$50 merchandise order, Mrs. Dora Foster; \$200 Edison and records, organization prize, Boy Scouts of America; \$25 merchandise orders were won by Mrs. C. B. Smith, Mrs. Jake Greenstein, Anna Mae Ely, C. F. Bristow, Mrs. J. E. Murphy, Lillian Corbett, and Mrs. J. T. Carter.

Judges in the contest were: W. C.

Aerduction in the price of the Chevrolet car of \$65 on the sedan, \$40 on the coupe, \$30 on the touring car, and \$20 on the roadster is announced by W. F. Harley, Louisville representative of that Automobile, who is in Middlesboro now. The reduction is made possible because of better manufacturing facilities, the establishment of more branches and the fact that the Cincinnati plant will start production in three weeks.

#### ROSE HILL NOTES

Mrs. Henry Smith, Mrs. Mammion, and Mrs. C. A. Bales spent Thursday with Mrs. M. S. Klineaid.

Mrs. C. B. Gibson of Louisville came Friday morning to attend the old-time singing school to be presented by the married people of the town this evening at the Rose Hill high school.

The W. C. T. U. held its regular meeting at the home of Mrs. George Graham Thursday. New officers for the year are: Mrs. John Beatty, president; Mrs. H. A. Bayless, vice president; Mrs. I. S. Anderson, secretary; and Mrs. Leonard Bales, treasurer.

Mr. and Mrs. Linart who have been on an extended bridal tour to Eastern cities returned Thursday.

H. I. Garrett left Thursday for Huntington, W. Va., on his way to Washington and Lee University where he will attend school this year.

The Rose Hill faculty will attend the annual Teachers' meeting at Pennington Gap, Friday.

Ruth Giles is at home a few days before going to Harlan to teach.

M. D. and Josh Richmond are here calling on the merchants this week.

Mrs. Walter Smith is general sales-lady at Rowlett's and Fugate's.

Epp Bales passed through Friday on his way to Pennington Gap on business.

Lester Ely left today for Gate City to enter school for the term.

Rev. and Mrs. Poulston returned Thursday from Cincinnati where they have been visiting Mrs. Poulston's mother.

Sheridan Chipley is here from the West visiting homefolks.

Mrs. Hattie Fulkerson came up this afternoon to spend the night with her daughter.

Mrs. R. J. Fulkerson of Ewing was in town today transacting business. Charlie and Rhea Kincaid of Ewing were here Thursday afternoon.

Miss Mary Fugate who has been clerking for her brother, Tom Fugate, has accepted a position as teacher in T. C. I.

Mrs. Walter Bales and little Sarah Coruella have gone to Ewing to visit her mother for the week-end.

Miss Minnie Thompson spent Thursday night with her sister, Mrs. Ramsey.

Little Virginia Grabel is still sick.

Mrs. Tom Gibson, Mrs. John Gibson and Mary Gibson of Ewing were calling on relatives here Thursday afternoon.

Mr. and Mrs. Herbert Ritchie of Ewing were in town yesterday.

Lois Garrett Fugate is on the sick list.

reported somewhat improved.

Dr. J. M. Hamilton and I. M. Shofner have returned from a business trip to Cincinnati.

W. T. Woodson, of the Middlesboro postoffice force, was visiting home-folks here recently.

Rev. James Russell has returned from Bell County, Ky., where he assisted in holding a revival meeting.

Miss Ollie Williams has returned from a visit with relatives and friends at LaFollette.

W. T. Hale and family, of Stephen's Branch, were visiting friends in Shawanee recently.

Mrs. Alice Crockett, of Indian Creek, is visiting Marcellus Hamilton.

K. C. Thomas and Mr. Carr, of Old Town, were business visitors in Shawanee recently.

John Owsley, of Middlesboro, was transacting business in Shawanee Wednesday.

#### STREET CAR MAN 61 YEARS

CLEVELAND, Sept. 10.—One of the original street car conductors of this city is still working for the Cleveland

connected with street railroads," avers Mulhern. "I was conductor for six months and then superintendent of the first street car line in Cleveland."

That was "way back in 1862. He became superintendent and general manager when the system was electrified in 1883. In 1903 he went into politics and was elected sheriff. Then back to handling paving contracts for the railways.

Mulhern's age doesn't bother him in the least. He's tall, broad-shouldered, bronzo-skinned and vigorous. His hands are still firm and steady.

"I'm just as husky as ever," he says. "I do this in summer and travel in winter."

Mrs. Mulhern is 74. The couple celebrated their golden wedding anniversary four years ago.

#### Visits Old Battlefield

James Smiddy, of Jellico, returned last week from a trip to Cumberland Gap, and vicinity, where he spent many hours going over the site of the Civil War, in which he participated. Mr. Smiddy was a member of Co. K,
